Agenda:
- Minutes of last call: status
- Follow up on action points: status
- Hot-seat: approval of wording of description as can be seen at
  https://eloos.github.io/docs/committee/product/#workflow
    - PC members to review and if good, then Eric to publish
- update on the review of the Queue, status today: 29 issues in Review, 8 in a new column called "Decide", this is down from 50+, progress for sure, but we need to keep going
    - If no response from requestor after 30 days, close it?
        - No, should give people some more time. 6 months? A year?
    - Hot seat person should review review queue and do the above
    - Everyone can tag 2 tickets in Backlog with PC Candidate label, top ones taken from there
    - Quote label means it's big enough to warrant a quote from 20C - not that it's being quoted right now.
- Translations for #184, how to do it
    - Objections to including German as initial translation language
    - Open source translations vs using a service
    - Eric to clarify the voting on the current quote includes translation into German as a line item
    - Eric says there exists an org that offers free translations to other non-profits, will reach out to them to see if they're willing to help
    - Job will reach out to a colleague who speaks Portuguese to see if they're willing to provide Portuguese translation
- Update on interconnection track NANOG
    - Continuing to work it - Karthik driving in email
