[PeeringDB Issues board](#)   **[Google Meet](#)**   **[PC Todo list](#)**

2022-03-03 Start: 16:30 UTC **End:** ??:?? UTC
Participants: Martin

Agenda
- Do a bug fix release (AN)
  - 53/191 [open issues (27.7%) are bugs](#)
  - Gather issues and rank
  - Get quote from vendor
  - Request extra budget from Board for bug fixes
- Process for User Contributed Code
  - Consensus on features?
  - Style and maintainability
- Hackathons:
  - NANOG84 recap - 1 contribution on API intersection searches. Works but style needs love (hence previous agenda point)
  - RIPE NCC - looking at getting code and/or doc contributions
- Rate limiting geographic searches ([#1079](#))
  - What's baseline now?
  - What is a reasonable limit for anonymous searches?
  - What is a reasonable limit for authenticated searches?
- #107 - [Implementation proposal](#)
- [Deployment Schedule for April and May 2022](#)
- "Carrier" object [proposal](#)
  - Implement [landlord/campus facility feature](#) first (AN)
  - Changes to initial design?
  - Community input steps before development
- Security - status update
- Authentication documentation
- Any other business?
