

PeeringDB

PeeringDB Workshop

How is PeeringDB organised?

arnold@peeringdb.com

Agenda

- Please always use the tutorial DB at <https://tutorial.peeringdb.com>
- What is PeeringDB?
- Organisation
 - History
 - Association
 - Committees

What is PeeringDB?

Mission statement: "PeeringDB, a nonprofit member-based organization, facilitates the exchange of user maintained interconnection related information, primarily for Peering Coordinators and Internet Exchange, Facility, and Network Operators."

Why should I have a record in PeeringDB?

- As a network a PeeringDB record makes it easy for other networks to find you, and helps you to establish peering / interconnection
- As a colocation provider a PeeringDB record creates visibility, and helps you to attract additional networks and Ixes
- As an IX a PeeringDB record provides information about your participants, and colocations where your service is available
- Provides a user friendly GUI and a powerful API for automasation

Governance and Membership

- PeeringDB is a United States 501(c)(6) volunteer organization that is 100% funded by sponsorships
- Healthy organization, building financial reserves and executing the long term strategic plan
- Membership rules
 - A corporation, limited liability company, partnership or other legal business entity may be a Member of the Corporation
 - Membership is determined by having both an active PeeringDB.com account and an individual representative or role subscription to the PeeringDB Governance mailing list
 - 344 addresses subscribed to the Governance mailing list (as of April 16, 2019)
 - Governance list is at <http://lists.peeringdb.com/cgi-bin/mailman/listinfo/pdb-gov>
 - More information available at <http://gov.peeringdb.com/>

Governance

- The Members
 - Any corporation, limited liability company, partnership or other legal business entity may be a Member
 - One (virtual / online) member meeting per year
- The Board
 - Sets strategic directions and overlooks financial issues
 - Half of the board is elected every year
- The Committees
 - Responsible for the day to day work
 - Admin Committee
 - Operations Committee
 - Outreach Committee
 - Product Committee

Committees

Admin Committee

- Manage administration of user accounts and PeeringDB records
- Answer support tickets
- Cleansing and completion of PeeringDB records

Leads: Stefan Funke (Chair)

Contact: admincom@lists.peeringdb.com

Operations Committee

- Manage PeeringDB infrastructure

Leads: Job Snijders (Chair) and Aaron Hughes (Vice Chair)

Contact: pdb-ops@lists.peeringdb.com

Outreach Committee

- Manage marketing and social media
- Develop and maintain presentations, workshops and webinars
- Coordinate presentations and attendance at events

Leads: Greg Hankins (Chair) and Bijal Sanghani (Vice Chair)

Contact: outreachcom@lists.peeringdb.com

Product Committee

- Manage roadmap and development priorities
- Ask for input from the community on desired features
- Write SoWs to solicit bids to complete requested features

Leads: Stephen McManus (Chair) and Matt Griswold (Vice Chair)

Product Manager: Filiz Yilmaz
Contact: productcom@lists.peeringdb.com

Support Ticket Statistics

- Admin Committee volunteers are based around the world in a variety of time zones with diverse language skills
- Goal is to resolve support tickets within 24 hours

PeeringDB Workshop

Learning the Ropes

arnold@peeringdb.com

PeeringDB

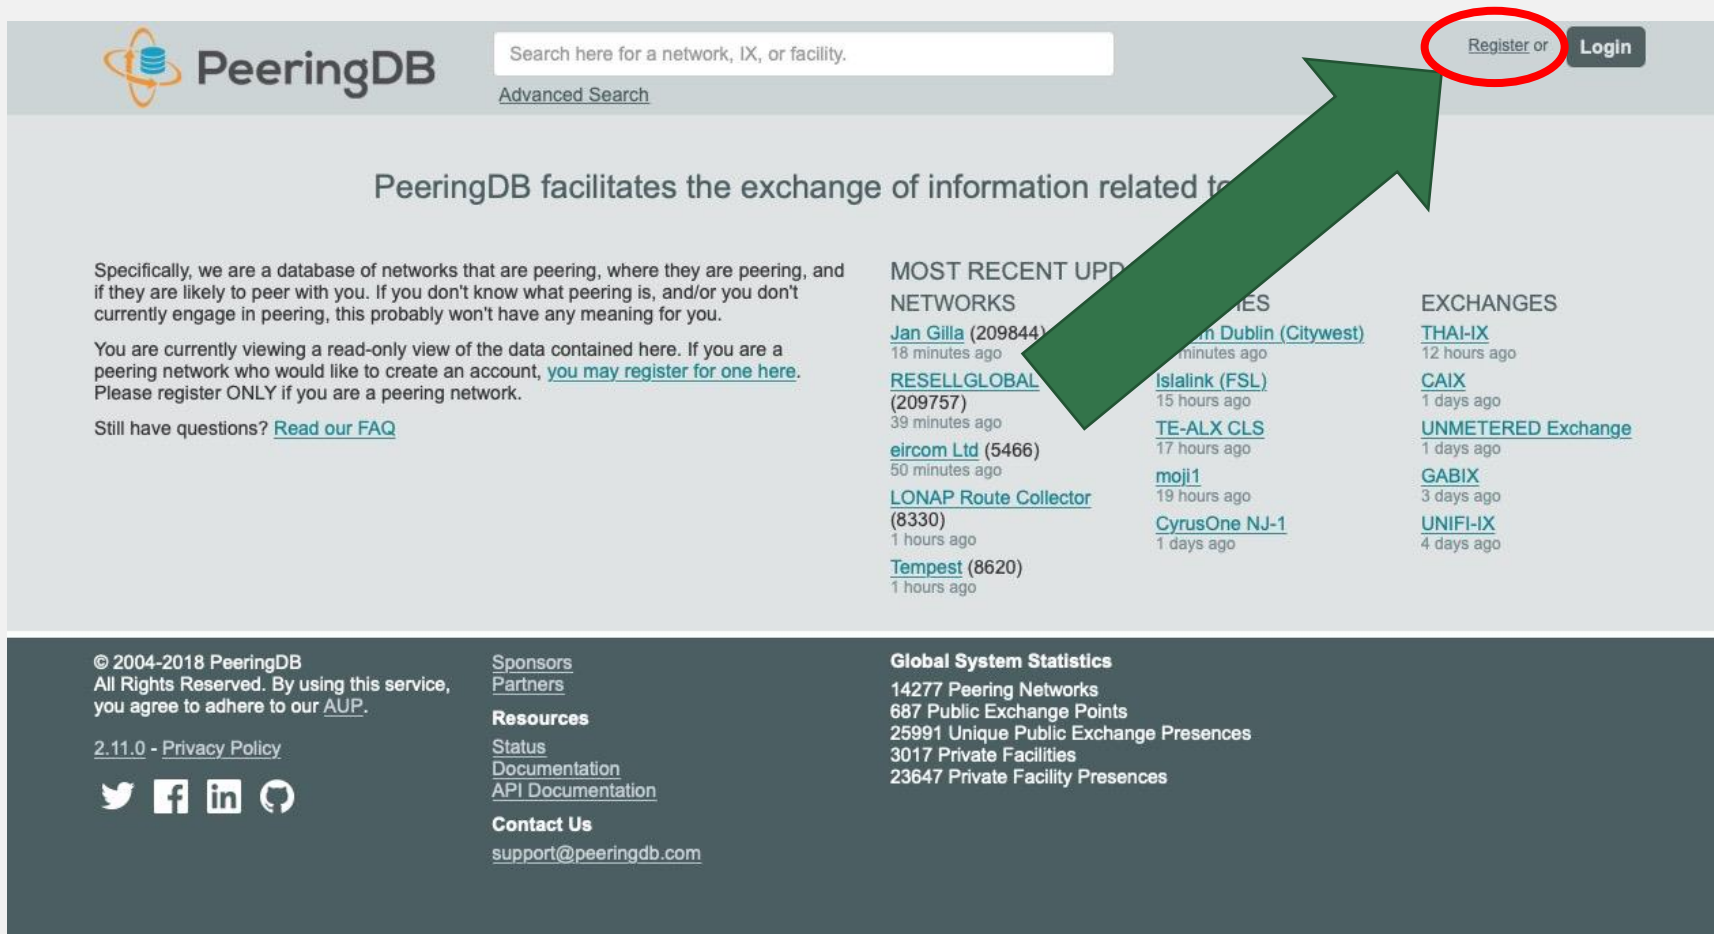

Where

Agenda

- Please always use the tutorial DB at <https://tutorial.peeringdb.com>
- Registering
 - Yourself
 - Your organization
- Adding information
 - About your organization
 - About your network / Autonomous System
 - Adding your peering policy
- Internet Exchanges and Facilities
 - Add where your network is present
- Retrieve information
 - Present what you have learned about another network

Registering

PeeringDB Search here for a network, IX, or facility. [Advanced Search](#) **Register or Login**

PeeringDB facilitates the exchange of information related to peering.

Specifically, we are a database of networks that are peering, where they are peering, and if they are likely to peer with you. If you don't know what peering is, and/or you don't currently engage in peering, this probably won't have any meaning for you.

You are currently viewing a read-only view of the data contained here. If you are a peering network who would like to create an account, [you may register for one here](#). Please register ONLY if you are a peering network.

Still have questions? [Read our FAQ](#)

Registering

Create account

Username

Password

Confirm password

For speedy validation, it is required that you use a work e-mail address. If you plan to register your ASN with PeeringDB, it is recommended that you use an email-address that exists in your ASN's public contact details.

Email

First name

Last name

I'm not a robot  reCAPTCHA
Privacy - Terms

Create

- Choose an username
- Password must be at least 10 characters long
- Use a **real work e-mail address**
 - Ideally the one you registered the ASN with
- And put in your first and last name
- You receive a confirmation email
- Click on the link in the email

Registering

The screenshot displays three distinct sections of the registration process:

- Select language:** A dropdown menu is set to "English", with a "Set language preference" button below it.
- Email Confirmation:** A red warning message states, "Before getting access to any other features, you need to confirm your email address." Below this, it says, "We have sent you a message containing the confirmation link." and includes a "Resend Confirmation Email" button.
- Change email address:** A section with a heading "Change email address" and a note: "For speedy validation, it is required that you use a work e-mail address. If you plan to register your ASN with PeeringDB, it is recommended that you use an email-address that exists in the ASN's public contact details." Below the text are input fields for "Email" and "Password".

- You can choose a language
 - If your language is not available yet and you want to help – let us know!
 - Not all languages are fully translated
- To re-send the confirmation email, click the button
- Further options here:
 - Change email address
 - Change password
- You have to click the link in the email to continue!

Registering

Set language preference

You have confirmed your email address!

Affiliate with organization

To affiliate with an existing organization, please enter the ASN or organization name below.

To register a new network organization, please enter the ASN and organization name below.

To register a new facility or exchange organization, please enter the organization name below (ASN is optional).

ASN

Organization

In case the RiR entry cannot be retrieved for your ASN, please contact support@peeringdb.com for assistance.

Existing affiliations

- Once your email is confirmed:
- Get affiliated with an organization
 - Your company
 - Which is already in PeeringDB
- Or is new to PeeringDB
 - Can be an ISP – enter your AS number!
 - Or a Datacenter
 - Or an Internet Exchange

Registering

Affiliate with organization

To affiliate with an existing organization, please enter the ASN or organization name below.

To register a new network organization, please enter the ASN and organization name below.

To register a new facility or exchange organization, please enter the organization name below (ASN is optional).

Edit

Your Organization

The screenshot shows a form for creating an organization on PeeringDB. The organization name is 'ACME Alternative Hosting'. The form includes the following fields:

- Website:** A text input field containing 'http://www.example.com'.
- Address 1:** An empty text input field.
- Address 2:** An empty text input field.
- Location:** A section containing three stacked text input fields: 'City', 'State', and 'Zip-Code', all of which are empty.
- Country Code:** A dropdown menu with a blue arrow icon on the right, currently showing an empty selection.
- Notes:** A large text area with the label 'Notes' and the sub-label 'Markdown enabled'.

- Lets focus on the left side of the screen
- Enter the required information (use either your Sheet or your real company information)
- Use the notes field to promote your company as a peer (if you want to)
 - You can use Markdown (see handout for URL)

Your Organization

ACME Alternative Hosting Inc.

- Fill in the rest
 - Either according to your sheet
 - Or choose your real network
- In „Notes“ you can use Markdown
 - You can give your peers free text information
 - Like details about your peering policy
 - More about your peering policy further down below

Peering Information

Allow IXP Update here

PeeringDB Configuration

Allow IXP Update
If enabled, an ixp may manage this network's entry in their peering list

Peering Policy Information

Peering Policy

General Policy

Multiple Locations

Ratio Requirement

Contract Requirement

- Now we add information about Peering!
- Important: Allowing IXP Update helps maintaining DB accuracy
 - So please allow if you trust your IXPs
- Use the dropdowns to publish your peering policy
- In case of selective/restrictive you may use the notes field above

Contact Information

Contact Information

Role ▾	Name	Phone
	Visibility	E-Mail
<input checked="" type="checkbox"/> Abuse	Abuse Desk	
	Public ▾	abuse@acme.example
Role	NOC ▾	
Name	Network Operations	
Email	noc@acme.example	
Phone	+43 1 2341668	
Visibility	Users ▾	

Add Contact

- **Very important!**
- To inform peers how to contact you
 - In a number of roles
- You can add as many as you need
 - „Add Contact“ to store and next
 - Public, for logged in users, or private
- You do not have to fill out all fields
- But please:
keep contact info up to date
- Do not forget to „save“ when complete

Review what you have entered

- You now have entered:
 - Information about your organization, like:
 - Address
 - Website
 - Free form text
 - Network information
 - Your AS number
 - Number of prefixes you announce,
 - Traffic info
 - Peering information, like peering policy
 - Contacts for your peers
- Please check if everything is correct

Add peering at an IXP

Public Peering Exchange Points

Exchange ▼ ASN	IPv4 IPv6	Speed RS Peer
Nothing matched your filter You may filter by Exchange, ASN or Speed		
Exchange	<input type="text" value="VIX AT Vienna Internet Exchange"/>	
Local ASN	<input type="text" value="64501"/>	
IPv4	<input type="text" value="192.203.0.222"/>	
IPv6	<input type="text" value="2001:7f8:30:0:1:1:6:fbf5"/>	
Speed (mbit/sec)	<input type="text" value="1000"/>	
RS Peer	<input checked="" type="checkbox"/>	

- Click on „Edit“ at the top right again
- Enter an IXP name in Exchange
 - And select the IXP you are connected to from the list
- Enter speed, IPv4 and IPv6
- Select “RS Peer” if you are peering with the route server
- **Click on „Add Exchange Point“!**
- And then click on „save“.

Presence at a datacenter

Private Peering Facilities

Filter

Facility	Country
ASN	City
<input checked="" type="checkbox"/> ITandTEL TechCenter Linz 64501	AT Linz

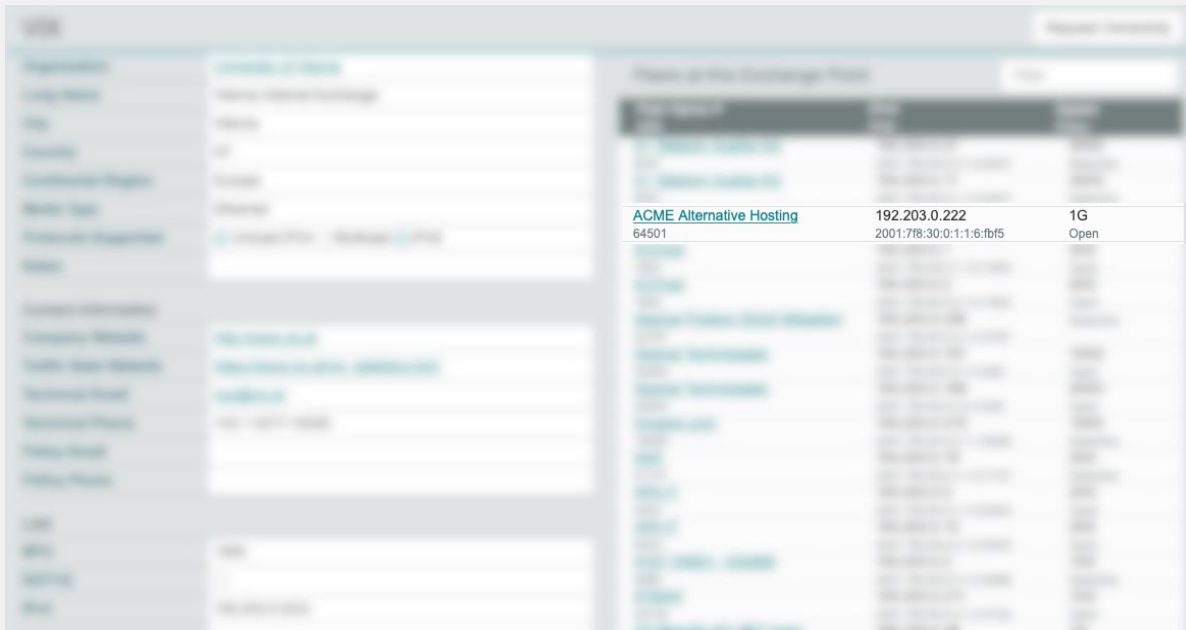

Facility

- Kelag Klagenfurt
Arnulfplatz 2
- Klagenfurt Stadtwerke
Gabelsbergerstrasse 50a

- Now again click on „edit“
- Scroll down and enter a city or datacenter name in „Facility“
- Select the facility you are in from the list and....
- ...click on „Add Facility“
- When you have added all facilities click on „Save“

Check what you have entered

- Click on the name of the IXP you entered
- Find your entry in the list
- Do the same for the facilities you are in

The screenshot shows a web interface with a table of IXP entries. The entry 'ACME Alternative Hosting' is highlighted in blue. The table has columns for IXP name, AS number, IP address, and status.

IXP Name	AS Number	IP Address	Status
ACME Alternative Hosting	64501	192.203.0.222 2001:7f8:30:0:1:1:6:fbf5	1G Open

Now lets see if others find you...

- Write your AS number on a sheet of paper
- All stand up and form a circle
- Give the person opposite to you your AS number
- and receive their AS number
- Use PeeringDB to learn about
 - Their organization
 - Their network

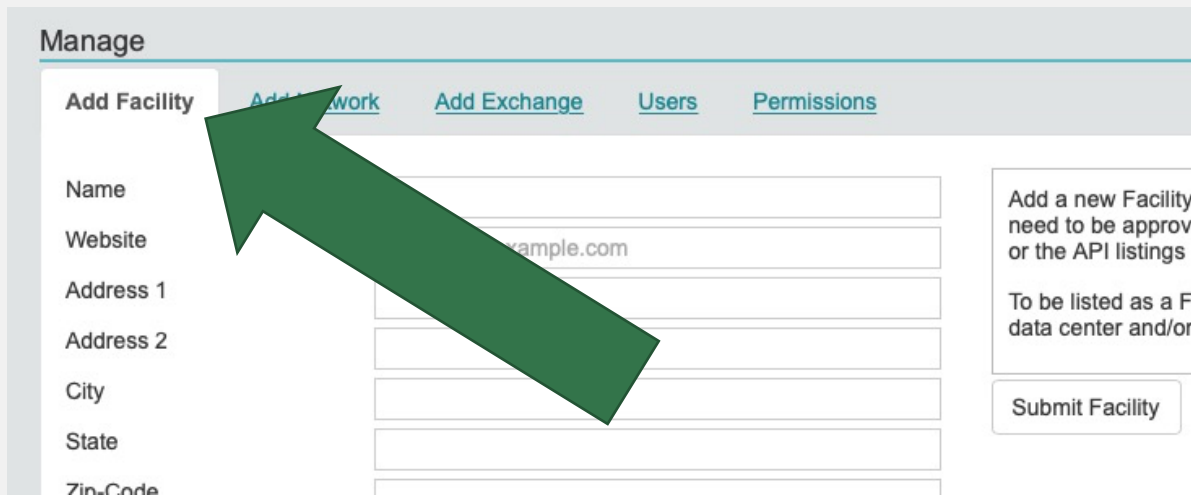

What to find out

- You should answer the following questions:
 - What is the main business of their organization / network
 - What is their peering policy
 - What is the size of the networks in terms of
 - Traffic
 - Prefixes
 - Where are they present
 - IXPs
 - Facilities
 - Would you peer with them?
 - According to your own peering policy
 - Why? / Why not?

Present what you have learned

- Present to the group what you have learned
- About the organization and network you have received
- The person who has entered the information checks
 - If everything is correct
 - If anything important is missing

Add your facility

The screenshot shows the 'Manage' section of the PeeringDB interface. It features a navigation bar with links for 'Add Facility', 'Add Network', 'Add Exchange', 'Users', and 'Permissions'. Below this is a form with fields for Name, Website (with 'example.com' as a placeholder), Address 1, Address 2, City, State, and Zip-Code. To the right of the form, there is a note: 'Add a new Facility need to be approve or the API listings' and 'To be listed as a F: data center and/or'. A 'Submit Facility' button is located at the bottom right of the form area. A large green arrow points from the bottom left towards the 'Add Facility' button.

- If you run your own datacenter
- Why not add it to PeeringDB?
- Go to your organization page
- Scroll down to „Manage“
- Choose „Add Facility“

Add your facility

Manage

Add Facility

[Add Network](#)[Add Exchange](#)[Users](#)[Permissions](#)

Name	<input type="text" value="ACME Alternative Datacenter"/>
Website	<input type="text" value="http://www.acme.example"/>
Address 1	<input type="text" value="Old Road 301"/>
Address 2	<input type="text"/>
City	<input type="text" value="Vienna"/>
State	<input type="text"/>
Zip-Code	<input type="text" value="A-1001"/>
Country	<input type="text" value="Austria"/>
CLLI Code	<input type="text"/>
NPA-NXX	<input type="text"/>

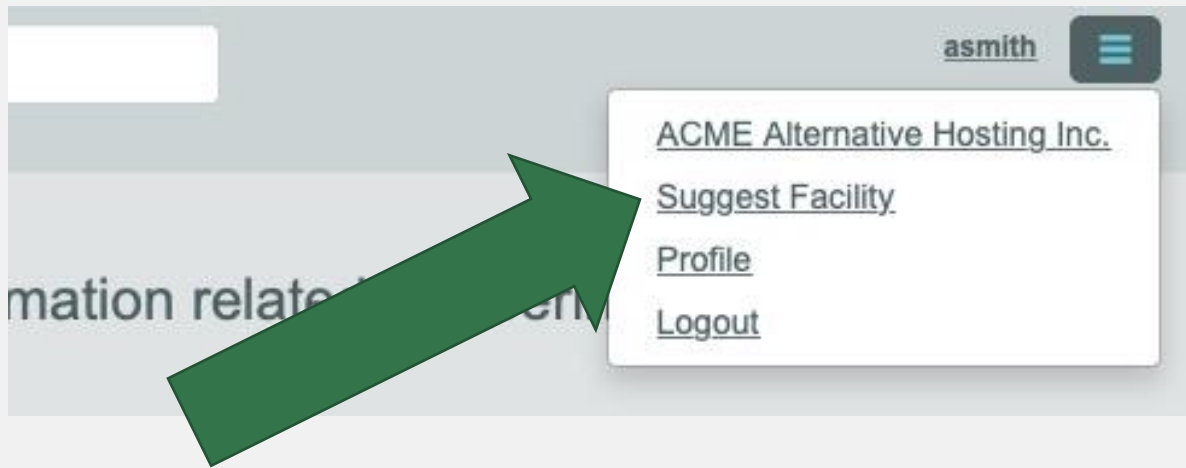

Add a new Facility to your Organization. Note that the newly created Facility will need to be approved by PeeringDB staff before it will appear in the search results or the API listings

To be listed as a Facility in PeeringDB we would expect that you offer colocation, data center and/or meet-me-room services to the public.

- Fill in applicable fields
- CLLI and NPA-NXX: for USA only
- Click „Submit Facility“
- Entry will be reviewed
- And added or declined

Suggesting a facility

- For facilities not your own
- But you are in or know about
- Choose „Suggest Facility“
- Needs to be reviewed by PeeringDB staff

Suggesting a facility

Name	<input type="text" value="ACME Alternative Datacenter"/>
Website	<input type="text" value="http://www.acme.example"/>
Address 1	<input type="text" value="Old Road 301"/>
Address 2	<input type="text"/>
City	<input type="text" value="Vienna"/>
State	<input type="text"/>
Zip-Code	<input type="text" value="A-1001"/>
Country	<input type="text" value="Austria"/>
CLLI Code	<input type="text"/>
NPA-NXX	<input type="text"/>

Suggest Facility to be added to the database. Your suggestion will be reviewed by the PeeringDB Administration Committee. It will then either be finalized and entered into the database, or declined. No further action is required on your part.

In order to be approved we would expect that the suggested Facility offers colocation, data center and/or meet-me-room services to the public.

- Fill in applicable fields
- CLLI and NPA-NXX: for USA only
- Click „Suggest Facility“
- Entry will be reviewed
- And added or declined

Adding users

- You do not have to be the only person working with PeeringDB
- Other users from your organization may also register!
- Users can be „admin“ or „member“
 - The first user automatically will be an „admin“
- Administrators are allowed to edit all fields (of your organization)
- Members rights can be as restrictive or as open as you need them to be
- Let's try it out
- Request affiliation with the organization you just presented

Affiliate with an organization

The screenshot shows the PeeringDB user interface. At the top right, the user 'asmith' is logged in. A search bar is visible. Below the search bar, there is a 'Select language' dropdown menu currently set to 'English', with a 'Set language preference' button below it. A confirmation message states 'You have confirmed your email address!'. The main section is titled 'Affiliate with organization'. It contains three instructions: 'To affiliate with an existing organization, please enter the ASN or organization name below.', 'To register a new network organization, please enter the ASN and organization name below.', and 'To register a new facility or exchange organization, please enter the organization name below (ASN is optional)'. Below these instructions are two input fields: 'ASN' and 'Organization'. At the bottom of this section is an 'Affiliate' button. Green star-shaped callouts with numbers 1, 2, 3, and 4 are overlaid on the page: 1 points to the user profile, 2 points to the ASN input field, 3 points to the Organization input field, and 4 points to the Affiliate button.

- Go to your profile page (1)
- Request affiliation
 - Either use the AS number (2)
 - Or name and select (3)
 - Click on „Affiliate“ (4)
- Admin of organization gets an email
- And either approves or denies

Approve affiliation requests

- Go to your organization page
- Scroll down to the „manage“ section
- Click on the „Users“ tab
- Either approve or deny new users

Manage

Save

User administration

The screenshot shows the 'Users' tab in the PeeringDB management interface. At the top, there are navigation tabs: 'Add Facility', 'Add Network', 'Add Exchange', 'Users', and 'Permissions'. Below the tabs, there are two main sections:

- Users requesting affiliation:** A table with columns 'Name', 'Email', and 'Date'. Below the table, it says 'Currently no users requesting affiliation with ACME Alternative Hosting Inc.'
- Users in Organization:** A table with columns 'Name', 'Email', and 'Group'. It lists two users:
 - Adam Smith (asmith) with email asmith@garf.de, currently in the 'admin' group.
 - Wolfgang Tremmel (wtremmel) with email wolfgang.tremmel@de-cix.net, currently in the 'member' group.Each user has a 'Remove' button. A 'Save' button is located at the bottom right of the table.

The screenshot shows the 'Permissions' tab in the PeeringDB management interface. At the top, there are navigation tabs: 'Add Facility', 'Add Network', 'Add Exchange', 'Users', and 'Permissions'. Below the tabs, there is a text box explaining that regular members can be granted permissions, while administrative users are not listed here. Below the text box, there is a table with columns 'Name', 'Create', 'Update', and 'Delete'. The table lists the user 'Wolfgang Tremmel <wolfgang.tremmel@de-cix.net> wtremmel' and a dropdown menu for selecting entities to grant permissions to. The dropdown menu is open, showing options like 'Any Exchange', 'Any Facility', 'Any Network', 'Facility - ACME Alternative Datacenter', 'Network - ACME Alternative Hosting', and 'Organization and all Entities it owns'. There are checkboxes for 'Create', 'Update', and 'Delete' permissions, and an 'Add' button.

- Users can be admins or members
- Use the dropdown to change
- For members – you can add permissions
- Use the permissions tab to grant create, update and/or delete to selected of any entities
- Do not forget to „save“ your changes

Removing Users

- Be sure you are logged in as an admin
- Go to your organization page
- Scroll down to the „manage“ section
- Click on the „Users“ tab
- Click on „Remove“ on the right side
- And do not forget to „save“
- The user is only deleted from your organization

Manage
